

2015  
**YRBS**  
 Youth Risk Behavior Survey

The Youth Risk Behavior Survey (YRBS) is conducted every two years across the country. In Alabama it is administered by the Alabama Department of Public Health to a sample of students in grades 9-12. The survey includes questions on:

- ◆ Behaviors that contribute to unintentional violence or injury
- ◆ Sexual behaviors related to unintended pregnancy, sexually transmitted infections (STIs), and HIV
- ◆ Alcohol and other drug use
- ◆ Tobacco use
- ◆ Unhealthy dietary behaviors
- ◆ Inadequate physical activity
