FOR ADOLESCENT SEXUAL HEALTH

## Community Benefit Report

October 1, 2021 - September 30, 2022

### Training

In FY22, we trained over 400 individuals through sexual health curricula trainings, professional development workshops, webinars, and conference presentations. These groups included ADPH, DHR, ALSDE, UAB, YouthServe, AIDS Alabama, and our inaugural Girls at the Center Youth Advisory Council.

### Resources

In FY22, we developed and distributed resources to 1,900 individuals at the Birmingham Women's March, the DHR conference, the Alabama Association of School Nurses conference, the Alabama Association of School Boards conference, the Children's Policy Council conference, the ReFOCUS conference, and the HOSA conference. We also continued to provide resources on our website, social media, and monthly newsletter.

### Advocacy

With the Dobbs v. Jackson Women's Health Organization (JWHO) decision to overturn Roe v. Wade, we have been strengthening the fight for comprehensive, inclusive sexual health education to prevent unplanned teen pregnancies and allow people as much bodily autonomy as possible under this current political climate.

### Partnerships

In FY22, we had the opportunity to partner with Department of Human Resources, Alabama Department of Public Health Adolescent Pregnancy Prevention Branch, AIDS Alabama, University of Alabama Birmingham, Alabama Association of School Nurses, FOCUS, YouthServe, Burdock Book Collective, The Knights and Orchids Society and others. These partnerships allow more young people to have access to evidence-informed sexual health education.

### From the Executive Director

2022 was an exciting year! From our inaugural Girls at the Center Youth Advisory Council (affectionately known as GACYAC) to our new partnerships, which allowed us to put resources in the hands of more people than ever before, the board and I certainly consider it a successful year. Unfortunately, we continue to see attacks on sex education and public education in general, from book bans to the erasure of LGBTQ students. The Alabama Campaign is committed to serving ALL youth with sexual health education and resources that will provide them with the knowledge, information, and skills they will need for the rest of their lives. We hope you will join us in the fight for sex ed!
